Dear Director Casey:

I am writing to urge the prompt promulgation of the document "National Policy on the Transfer of Scientific and Technical Information."

The policy as drafted will, I believe, lead to sound and consistent standards for the conduct of research projects and for the communication of project results. This matter is of genuine importance to the University of Colorado.

I urge you, therefore, to affirm to the National Security Council the importance of the policy, and to proceed with its implementation.

Sincerely,

A handwritten signature in cursive script, reading "Hunter R. Rawlings III".

Acting Vice President  
for Academic Affairs
